Dog Laws in Congress.—In the circular issued by the Commissioner of the Department of Agriculture, calling for a report on the 1st of February, 1867, Hon. The Commissioner follows up this question by a commentary upon sheep and dogs which is interesting and highly sug gestive! He says: "The losses of sheep from attach the interest of the defendant in the real this cause (dogs) are everywhere very heavy, and an approximate statement of the total losses throughout the country is very desirable. being far more durable in its effects. It contains a large amount of animal matter in a highly concentrated form, which, combined with its soluble bone phosphate of lime, cannot fail to render it very valuable as a tertilizer. — Notwithstanding we believe it to be the bost super-phosphate in the market, yet, by a process peculiar in its manufacture, whereby the expenses are lessened, we are enabled to sell it very low, with a liberal discount to dealers.
